

## Keep on Shining: One More European Award Bestowed on MEAN WELL

Yin Liu / MWEU

Following the 3 awards won in the first quarter of 2017, MEAN WELL again received the Unique Solution Prize for ELG-D2 series, the intelligent driver with smart timer dimming, from one of the major industrial tradeshow [ELO SYS 2017](#) in Czech Republic and Slovakia.

Mr. Juraj Klein, the owner of JDC, s.r.o., MEAN WELL authorized distributor in Slovakia, represented MEAN WELL to receive the award. Mr. Klein indicated that ELG-D2 (intelligent dimming function) won the prize due to its outstanding price and performance ratio, high reliability with 5-year warranty, plus the smart timer dimming that provides flexible energy saving solution on luminaire design. In Europe, nowadays there are more and more streetlight producers specify to use MEAN WELL ELG-D2 series.

Europe has been always advanced in lighting technology. In the midst of fierce market competition, MEAN WELL has established its market leader position thanks to the extensive product portfolio, competitive specs, as well as the local technical and logistic support from all over Europe.

In order to further develop the European market, bringing our service and values to the next level, MEAN WELL plans on establishing a "Research & Development Center" at MEAN WELL Europe. With this we aim at being the interface liaising between Europe and Asia, ensuring product development that meets the European market demands. For example, one direction is to develop products for building automation and intelligent control. Our objective is to make products that are "Designed in Europe."

As we are half way through the 35<sup>th</sup> anniversary of MEAN WELL, we will continue improving PQCDSP, transforming and growing to keep our brand on shining in the global market!

ELG-D2 is bestowed the Unique Solution Prize at ELO SYS 2017. Mr. Juraj Klein received the award on behalf of MEAN WELL.
